Reference number 8160

Continent Asia
Country Bangladesh
Duration More than 2 years
Career Education
Priority Normal

Bangladesh has immense need of technical education and vocational training in the commercial trades like house wiring, mechanics, steel fabrication welding, etc. There is a strong demand for qualified workers in Bangladesh, as well as overseas employment in countries like Singapore, Japan, and Korea. You can help provide training in trade language useful to students of vocational training courses. Language instruction will include technical vocabulary linked to a particular trade and emphasize speaking and listening skills. Instruction will be in English.

An increase in relevant technical and vocational training is seen as a strategic need by the current government.
