Bangladesh is home to more than 150 million people, many of them stuck in deep cycles of poverty. In the impoverished districts where Community Development Project works, literacy rates among women are extremely low, less than 30%. If you have a heart for the truly unreached and for showing God's love through compassionate development work among some of the poorest on earth, this may be the place for you!

The team at Community Development Project is looking for a literacy advisor to help them monitor the existing literacy program, find ways to improve the program's effectiveness in training adults in literacy, and ultimately help Bengalis out of poverty and into an improved quality of life.
