Career Education

Priority Normal

A small school wishes to offer English classes in grades 1-10 taught by native English speakers. Increasingly, English is being used in education, but many schools fail to adequately equip students to converse in English.

Many of the students' parents are poorly educated, so there is a need to offer additional support, especially for their children. The school teaches Bible and seeks to be a contact with the wider community. This is a wonderful opportunity for someone trained in ESL, EFL, or TESL.
