

Asia Forward

Asia Forward, Thailand — 98185

Can you imagine trying to build a beautiful building with no scaffolding? That's what it would be like to be involved in mission without a gifted administrative and support team. Project Asia Forward will help establish a base to offer vital support to workers in Asian locations.

The Asian door stands wide open to those who would give their time and skills. The number of SIM personnel in this region has doubled in the past two years. New workers have moved to campuses where students are eager to learn and are hungry for spiritual truth. Others have gone to operate a business, to offer medical services, or to care for street children. All are sending back reports that God is using them to change lives.

God is advancing the work of SIM in Asia, but moving forward requires investment. These new workers need the care and backing of a leadership and administrative team to support their efforts. The Asia Forward Project will off-set the initial costs of setting up a base from which to offer vital support services to the teams.

Get Involved

Pray

for the support team making the development of work in the region possible

for new workers to join the team

Give

Already £11,000 has been given by fellow SIM field/sending offices in Africa and North America. God has blessed the work with generous gifts and people.

If you would like to give to this project please click on the link below and quote the following:
